You can use it with text, audio, video, file sharing and private off the record conversations.

Second, WowApp **shares over 70% of its own revenue/margin** with its users! Get rewarded for everything you and your network do in WowApp, up to 8 levels deep! The application taps into the **\$5 Billion a year International Calling Market** and the **\$135 Billion a year Digital and Mobile Advertising Markets**.

Now here's what's really cool: a percentage of the calling minutes purchased by others in your network will be paid out to you! Also when you use the app **the company will pay you 20% of the revenue generated by**

**ads** the app displays while you use it. When other people in your network use the app, the same way you do, you will be rewarded even more. For example, you'll receive 25% of the revenue generated by ads displayed to people in the first level of your network.

Whether people make paid calls, purchase a virtual phone number or simply use the app (and get exposed to ads) you will cash out!
